# Swiss IPv6 Council erhält Award

---

Dem Swiss IPv6 Council wurde anlässlich des V6 World Congress in Paris letzte Woche der Jim Bound Award als IPv6 World Leader 2013 verliehen. Der Award wurde durch Bob Kahn, Vater von TCP/IP und Gründungsmitglied von ISOC übergeben.

Dazu Latif Ladid, Präsident des Internationalen IPv6 Forums:

“Switzerland under the decade-long leadership of Silvia Hagen has achieved the first double digit v6 penetration in 2013, demonstrating that v6 deployment is achievable if you get the major stakeholders to move together in this gigantic worldwide effort. Switzerland has broken the ice for the rest of the world and got the race for double digits as the new milestone for the other countries to achieve. Switzerland became the model country to emulate. This was in itself a strategic tipping point for a re-fresh deployment effort after years of stagnation. The Jim Bound Award will be the piece of recognition to get in this new v6 inflection point.”
